PROFESSIONAL SUMMARY

Detail-oriented developer with strong skills in Python, Java, and UI/UX development. Committed to delivering high-quality results through collaboration and effective problem-solving.

SKILLS

- UI/UX development
- Layout development
- JavaScript fundamentals
- HTML5
- Git version control
- Object-oriented programming
- C
- Data structures
- Time management
- Teamwork and collaboration
- Wireframe design
- UX architecture
- Javascript
- CSS
- Python
- Basic database management
- Java
- Problem-solving
- Decision-making
- Friendly, positive attitude

EDUCATION

Higher Secondary: Biology Science
Gbhss Chittur - Palakkad, India

B.tech: Computer Science, Expected in 05/2028
Nss College of Engineering - Palakkad, India

CERTIFICATIONS

NPTEL-The joy of computing using python

INTERESTS

Web development | Ui/ux design | Ai/ml

PROJECTS

Peer-to-Peer Learning App
- Designed and developed a platform that enables students to connect, share knowledge, and collaborate through peer-to-peer learning.
- Implemented features for user interaction, resource sharing, and collaborative learning.
- Focused on creating an intuitive and user-friendly experience for students.

Weatherly App
- Developed a Java Swing desktop application to display real-time weather information and forecasts.
- Integrated a Weather API to retrieve and present accurate weather data.
- Designed a responsive interface for easy access to weather updates.

Phone-Controlled Robot
- Developed the software module for a smartphone-controlled robotic system.
- Implemented communication logic to transmit and process control commands between the mobile application and the robot.
- Designed and tested functionalities for real-time movement control and user interaction.
- Collaborated with team members to integrate software components with the robotic system.

Employee Leave Management System
- Developed an application for managing employee leave requests and records efficiently.
- Implemented features for leave application, approval, and tracking.
- Improved record management and reduced manual administrative effort.

ACHIEVEMENTS

Phone-Controlled Robot project selected by TinkerHub for further development and mentorship.
